

People and jobs

A suffix is a group of 2-4 letters that we add to a word. When we talk about people and jobs there are a number of suffixes which we see all the time:

-er	-or	-ian	-ist
teacher <u>er</u>	doctor <u>or</u>	electric <u>ian</u>	dent <u>ist</u>

In the box you see the names of different jobs, but the last 2-3 letters are missing. What is the suffix for each job? Write the words in the spaces above.
